

# LOCAL ROOTS FARM

## 2018-19 WINTER Community Supported Agriculture

Local Roots is a 17-acre family-operated farm, located about 25 miles outside of Seattle in the fertile Snoqualmie River valley. Our Winter CSA begins in December and continues through early March. Winter CSA produce includes a wide variety of crops grown here on our farm, as well as some produce sourced from other farms in our region (Snoqualmie, Snohomish, and Skagit counties).

**Dates:** For the 2018-19 season, there will be a total of 6 boxes. Our winter shares contain about twice as much produce as a typical main season CSA share, and are delivered every other week. This year, because of holiday and vacation timing, we will consolidate our December delivery to one single EXTRA-LARGE box, and will start every other week delivery in January.

- One large share (~25# of produce) **on Tuesday, December 11<sup>th</sup>**
- Five ~18# shares January thru early March: 1/8, 1/ 22, 2/5, 2/19, 3/5

**Price:** \$275 for the whole winter season. We only offer one share size for the winter CSA.

**Payment:** We are not set up for online signups or to take credit cards, but we do accept an assortment of e-pay options, which are usually free for both parties. We are not set up for online signups or to take credit cards, but we do accept an assortment of e-pay options, which are usually free for both parties. To sign up paperlessly, email Siri with your preferred pickup location and to confirm payment details. **Payment is due by ASAP.**

**Vacation/misssed pickups:** For pre-planned absences, you may pro-rate your subscription price. Dates must be chosen and confirmed with us prior to the start of the season. We do not offer a refund or credit for missed pickups.

**Pickup Locations:** Final pickup locations contingent on sufficient number of members signing up. Please indicate your first and second choice for pickup site.

| - Maple Leaf                  | - On-farm           |                          |

**Our Growing Practices:** Local Roots uses no synthetic inputs on our farm. We build soil fertility with cover crops and compost, control weeds with tractor and human powered tools, minimize insect damage with spun-fabric row cover, and accept a certain amount of crop loss due to pests, disease, and bad weather. Our partner farms are all either Certified Organic or follow the same grower standards as we do (un-certified but following organic practices).

**Egg Add-On:** Goose & Gander Farm is owned by Meredith Molli & Patrick McGlothlin, our friends and neighbors. Goose & Gander Farm hens forage on pasture and eat a certified non-GMO soy & corn-free feed, plus sprouted whole grains, fresh vegetables and leafy greens. **Price: \$54 for dozen/delivery.**

**Weather contingency:** It is possible that flooding may limit our ability to make deliveries as scheduled. We will, of course, be in touch with you to make alternate plans if flooding is forecast to disrupt our planned deliveries.
